## JEEP WAGONEER

**Different? Definitely!** The new 'Jeep' Wagoneer is the first station wagon ever built to offer the comfort, silence, speed and smoothness of a passenger car—plus the safety and traction of 4-wheel drive.

The 'Jeep' Wagoneer is the one family wagon you can drive almost anywhere, in almost any kind of weather.

It's the first and only 4-wheel drive wagon with optional automatic transmission and independent front suspension.

The 'Jeep' Wagoneer features the power and economy of America's first and only automotive overhead camshaft engine, the Tornado-OHC.

It has the most usable cargo space... both high and wide. The 'Jeep' Wagoneer is also available in 2-wheel drive models. Step in. Size it up. Try it out at your 'Jeep' Dealer's today!

Willys Motors, world's largest manufacturer of 4-wheel drive vehicles.

**Family Finances**

How much money should you keep in a savings account? Many financial experts recommend that you have at least an amount equal to three months' salary on hand to meet possible emergencies.

Of course, a savings account is an ideal way to save money for other important things, too. Money saved now can go a long way when it comes time for such things as retirement or college for your youngsters.

As a guideline for your saving program, you should try to save a set amount each month, based on your income after taxes. For example, if your take-home pay is \$200 to \$300 a month, you should set aside at least \$7 a month savings.

Here are other recommended minimum savings:  
\$300-400 monthly income, save \$25.  
\$400-500 income, save \$50.  
\$500-600 income, save \$90.  
\$600-700 income, save \$110.
